

N - TRACKER

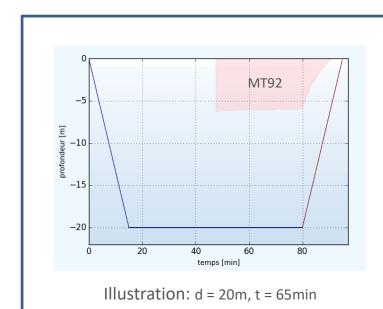

N-tracker (prototype V2)

04/12/2019

'N-TRACKER', UN DOSIMÈTRE POUR ACCOMPAGNER LES INTERVENANTS EN MÉDECINE HYPERBARE

Hors alarme: MT92 (21m, 70min) Sortie: TN2 = 1.491 bar !!!

Retour à l'équilibre (TN2 = 0.79 bar):

- 618 min sous air
- 74 min sous O2

=> impact sur la gestion des loisirs!! (activités physiques, montagne, avion,..)

Application Caisson Hyperbare

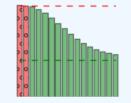

sequence: [[0, 15, 15.0, 'air', False], [15, 15, 65.0, 'air', False], [15, 0, 15.0, 'air', False]] dive type: MT92AirO2_12mix

Surface: Pression: 1.013 [bar], Tension: TN2 = 1.67 [bar], THe = 0.0 [bar] PpO2 max: 0.53 [bar], PpN2 max: 1.99 [bar]

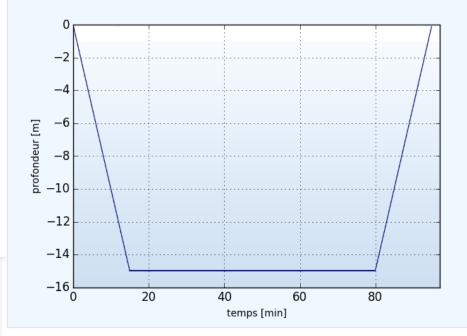

- Denitrogenation sous air : 593.0[min] - Denitrogenation sous O2: 70.0[min]

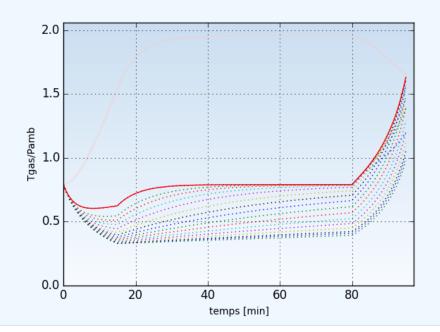

- Compartiment directeur : 6

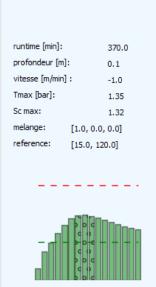

runtime [min]: 54.1 profondeur [m]: 15.0 vitesse [m/min]: Tmax [bar]: 1.98 Sc max: 0.79 melange: [0.21, 0.79, 0.0] reference: [15.0, 89.0]

LES OBJECTIFS DE 'N-TRACKER'

- Un suivi individualisé de l'évolution de la tension en gas inerte respiré des intervenants professionels en millieu hyperbare pour une sécurité améliorée
- Une indication en temps réels des **temps de dénitrogénation** pour plus de sérenité
- Un seuil d'**alarme** paramétrable en fonction de la procédures de décompression choisie
- Des fichiers de données aisément transférables, de format compatible avec Excel

DosiViewer

select File

alarm:

file: C:/Users/RPIG/Desktop/2018-07-13-DosiN2.csv starting time: 2018-07-13 08:50:04

max O2: 14.8 [m]

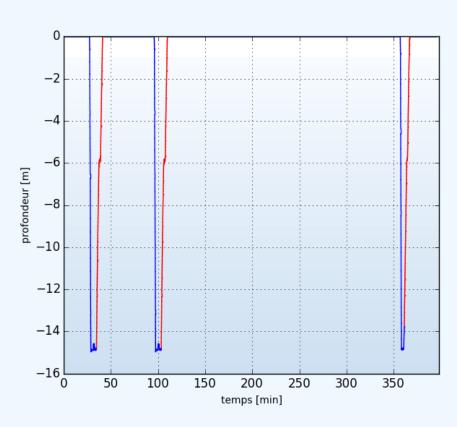

diveType: MT92AirO2_12mix

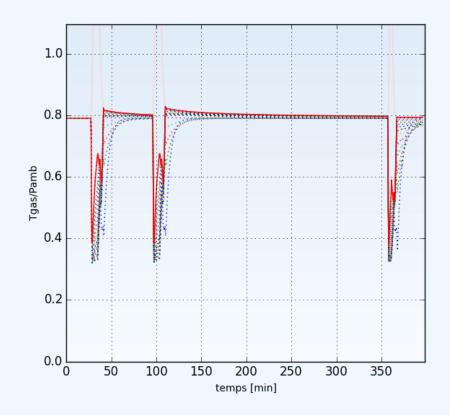

Pression - surface: 1.013 [bar]
Tension - surface: TN2 = 0.803 [bar], THe = 0.002 [bar]
- Denitrogenation sous air : -0.0[min]
- Denitrogenation sous 100% O2 : -0.0[min]
- Compartiment directeur : 16

runtime [min]: 110.3 profondeur [m]: 0.0 vitesse [m/min]: 0.0 Tmax [bar]: 0.83 Sc max: 0.82 melange: [1.0, 0.0, 0.0]

reference:

STATUS & PERSPECTIVES

- L'évaluation du ,N-Tracker' est en cours aux HUG, à Lyon et Québec
- La production d'une série de 20 appareils
- L'intérêt d'autres centres de médicine hyperbare est en cours d'évaluation

N-tracker (prototype V2)

évolutions futures liaison à une base de données et une console centrale d'information

MERCI POUR ATTENTION
